

ATS Launches New Professional Services

Water Conservation Specialists
Established 1979

Leak Surveys • Leak Pinpointing • Utility Location • Hydrant Flow Testing • Water Main Flushing
Valve Assessment Programs • GPS-GIS Mapping Surveys • Location Equipment Sales and Expert Training

ATS has been a leader in infrastructure services since introducing the first leak noise correlator to the water industry in 1979. While working in 20 states across the USA, we have established ourselves as one of the best in the business, when it comes to Leak Location Surveys, Leak Pinpointing, Utility Location Services, Equipment Sales and Training.

ATS is proud to introduce our newest professional service offerings with the same commitment to outstanding accuracy, availability and quality that you've come to expect from **ATS**. You can count on **ATS** to be there fast whether you need service for just one appurtenance, just one area, or your entire system at very competitive and cost effective rates.

ATS has purchased the best equipment that **EH Wachs** and **Hose Monster** offers. Every **ATS Technician** is factory trained, experienced and will do everything possible to make sure that the job is done right. It's the same commitment to excellence that we have had for the past 30 years.

Valve Operation and Maintenance Programs:

Make sure all of your Valves and Fire Hydrants operate properly when you need them the most.

All valve exercising and water main flushing services are performed by hand and with our new trailer mounted **EH Wachs ERV-750 Automated Valve Exercising System** for large and small valves.

- Properly Exercise and Locate Valves with Survey Grade GPS
- Digitally document detailed Valve Operational Data
- General Inspection and Assessment
- Clean Out Valve Enclosures
- Annual Programs and Emergency Services are available 24/7

Fire Hydrant Flow Testing and Water Main Flushing Programs:

- Properly maintained Fire Hydrants save lives and property.
- Water main flushing maintains and improves water quality.
- Hydrants and Auxiliary Valves are Located with Survey Grade GPS
- Digitally document detailed Hydrant Data for function and flow capability
- Flow Testing and Flushing performed with **Hose Monster Systems**
- Programs available for your entire system or just one section of it.

GPS / GIS Appurtenance and Utility Location Services:

- **ATS** only uses the **Industry's Best Utility Location Equipment**.
- **Radiodetection RD 4000 & RD8000 Utility Locators**
- **Radiodetection, Schonstedt & CST Berger Metal Locators**
- **Magellen Mobile Mapper CX GPS / GIS - Survey Grade Accuracy**
- **Radiodetection RD-1000 Ground Penetrating Radar**

ATS Leak Location and Utility Location Services:

- Unsurpassed results and documented 96% accuracy since 1979.
- Fast response 24 hours a day / 365 days a year.
- Full Range of Services available throughout the USA.
- Utilizing **FCS**, **Sewerin** and **Palmer Leak Correlator Systems**
