GPS-GIS Mapping Surveys • Location Equipment Sales and Expert Training

43 Years of Experience and Unsurpassed Accuracy Pinpointing Leaks and Locating Underground Utilities

Scheduled and Emergency Leak Pinpointing Services

Faced with a pressure test leak that prevents your water system from passing? Maybe there is other evidence of a leak. You can't afford to guess.

- Expertise, experience and availability 24 hours a day - 365 days a year.
- Our fleet of fully-equipped Leakmobiles are *always ready* to provide *Fast Response* across town or across the country.
- Unmatched **96% accuracy** pinpointing nearly a half-million leaks of all sizes and types within the first excavation.
- All ultrasonically detected leaks are electronically pinpointed with *FCS & Sewer in Leak Noise Correlator Systems*. All utility lines are accurately traced with *Radiodetection Location Systems*.
- *ATS pinpoints leaks and traces utilities in the toughest situations that stymie other firms.*

ATS Fleet of Leakmobiles - Always ready at a moment's notice

"Critical Dig" Location Specialists
